

8th International Conference on Radiology and Surgery

“A practical approach to modern diagnostic modalities and treatments in practice”

- 09.15-10.00** Giliola Spattini - Pain of the hip joint: does it always mean hip dysplasia? (45 min)
- 10.00-10.45** Bruno Peirone - Early diagnostics of hip dysplasia and treatment options. (45 min)
- 10.45-11.30** Bruno Peirone - Double pelvic osteotomy versus triple pelvic osteotomy for the treatment of hip dysplasia in young dogs. (45 min)
- 11.30-12.00** Coffee break
- 12.00-12.45** Giliola Spattini - How to diagnose the hind limb muscular diseases with ultrasonography in athletic dogs (45 min)
- 12.45-13.30** Giliola Spattini - Stifle injury: are radiology, ultrasound, CT or MRI modalities useful for diagnosing the cruciate, meniscal diseases or other conditions? (45 min)
- 13.30-14.15** Coffee break
- 14.15-15.00** Bruno Peirone - Clinical and radiological diagnostics of the cranial cruciate ligament rupture. (45 min)
- 15.00-15.45** Bruno Peirone - Tibia plateau levelling osteotomy (TPLO) as a treatment option in cranial cruciate ligament rupture in dogs (45 min)
- 15.45-16.30** Giliola Spattini - Ultrasound examination of the Achilles tendon and lower hind-limb injuries in the sportive dog. (45 min)

Registration fee: PLN 350.

Payments to be made by bank transfer, the account number:

BIC/SWIF: BREXPLPWMBK, PL 93 1140 2017 0000 4102 0413 2486,

with annotation “Conference on Radiology”.

INFORMATION AND REGISTRATION: www.poliwet.eu – registration form

Conference registration desk is open Monday-Friday from 9 am to 3 pm.
